## Sponsor An Orphan

Orphan Support is a comprehensive child development program set to provide a stable socio-economic environment for registered beneficiaries in order to ensure they grow up to be productive members of society. The children are supported until they are 18 years old. For a one-time donation of \$600/year or \$50/month, you can support an orphan with their significant needs of food, education, healthcare, and psychosocial support.

## Sponsored Children Receive

Food & Subsistence (includes financial assistance, food Packages and hygiene kits)

Education (includes school fee, books, and school supplies)

Health (includes medical checkups and referrals for specialist when needed)

Social Uplift (includes extracurricular and group activities and Celebration of National days)

Child Protection Rights (includes home and school visits to ensure the child's safety and provide intervention where needed)

### **Ensuring Medical Care**

Mobile medical units bring relief to villagers who are either unable to afford medical care or reside in rural areas that oftentimes are unreachable during natural disasters. Emergency medical professionals, enabled with ambulatory training, increase their capacity to cope with any given emergency through these services. This also helps provide a means for patients to successfully attend rehabilitation and therapy sessions by securing transportation.

### **Reduce Maternal Mortality Rate**

Lifesaving services are being provided to reduce the maternal mortality rate such as postnatal checkups, health awareness sessions, and vaccination services. HHRD ensures the staff is properly trained to assist these women and children, along with arranging specialist clinics. Along with neonatal care, infants and children receive medical checkups and vaccinations. Mothers are invited to attend awareness sessions to ensure a healthy lifestyle.
